

Interaction modes

Telephone Banking users have the option of using the shortcut Expert Menu Mode or the Main Menu Mode to access the system. By default, all new users will be set up to use the Main Menu Mode. If you prefer using the shortcut options listed below, you will need to select "Change Interaction Mode" by pressing 8 in the Main Menu. To move back to the Main Menu Mode, select option 5, followed by option 8 in the Expert Menu Mode.

Telephone Banking

Just a phone call away.

Convenient account access over the phone.

We know you want and need quick access to your accounts at all times. In addition to Online and Mobile Banking, our Telephone Banking system provides convenient account access by phone, 24 hours a day, 7 days a week.

With Telephone Banking, you can:

- Check account balances
- Make withdrawals
- Transfer funds between subaccounts
- Check account activity
- Make loan payments
- Listen to most recent deposits
- And much more

Telephone Banking is easy to use. Inquiries are completed via the keypad on your phone and are available in both English and Spanish. For your convenience, we have provided a reference guide that contains a detailed list of menu options.

Telephone Banking setup

First-time users will be prompted to set up a Personal Identification Number (PIN). During enrollment, our Telephone Banking service uses multi-factor authentication (MFA) to help securely verify your identity and establish your PIN. For added security, your Telephone Banking PIN should be different than your debit or credit card PIN. Once enrolled, you can navigate the Telephone Banking menu by entering the appropriate menu options.

Access Telephone Banking by calling **(800) 766-4328, ext. 8.**
