

02.24.2018

First Florida's County Road 210 Branch hosted Girl Scout Troops 138 and 169 this month for a financial literacy workshop. This was our second event with the Girl Scouts of Gateway Council as part of their spring offerings.

All totaled, we had 19 girl scouts participate and eight parent volunteers who helped to facilitate the activity. Both the parents and the girls did a great job!

After completing our exercise, the girls were eager to share their plans for the money that they had left over in their budgets. They raised their hands and talked about their plans to save their money for emergencies, college, and retirement. It would seem that they are absolutely headed in the right direction.

At the girls' request, we also dove deeper into some other topics like taxes, life insurance, lending money, and more. By the end, the girls had certainly earned their First Florida Financial Literacy patches!

First Florida will partner with the Girl Scouts of Gateway Council again in March to provide two workshops over Spring Break.
