

Creekside High School celebrated the end of another successful school year with their annual Running of the Knights 5k event. First Florida was proud to support this event once again as a Platinum Sponsor.

First Florida was able to have a table on the field where we handed out bottled waters, granola bars, and ear buds to race participants. Additionally, we had membership and promotional information on hand ready to share with event attendees.

Logo placements on select event materials and PA announcements throughout the duration of the event were included with our race sponsorship. Additionally, we received multiple 5k entries. Ashleigh Robinson, Carlissa Smith, and Camille McGahey all took to the course for Team FFCU, but it was Carlissa who brought home the prize, winning 1st Place in her age group.

The Running of the Knights raises funds to help Creekside's sports and band programs purchase large items that otherwise they wouldn't be able to afford. Without major fundraising programs such as the Running of the Knights, their sports and band programs may not receive the funds necessary to operate.
